Empowering Small Businesses Online

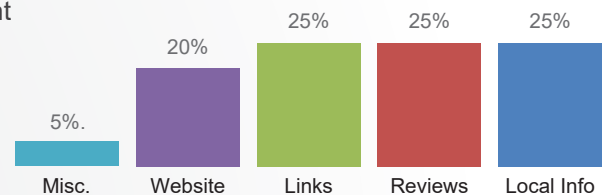

Manage online listings in real-time, monitor reviews as they happen

The most powerful, scalable location content management system available. Sales are lost due to out-dated or missing business location information across online maps, apps, directories, GPS devices, social networks, and search engines. Gogiro's Local Listings & Review Monitoring service puts listings back in your control. We work across 60+ partner sites, including Google, Bing, Facebook, Foursquare, Yahoo, and Yelp resulting in a strong, accurate presence on search, maps, directories and mobile apps.

Understanding Search

Today's leading search experts and one of the most prominent thought leaders in Local SEO, David Mihm of SEOMOZ, recently presented his opinion of search ranking factors based on research findings. Verified business information accounts for 25% of ranking result. Today's leading authorities generally agree with this statement, and how the other noted factors influence search rankings.
